The Daily Quote

"Improvements in housing and manufacturing are driving the early stages of the economic recovery, according to a Federal Reserve survey released Wednesday. The Fed's latest snapshot of business conditions nationwide found "many sectors" of the economy either stabilized or logged modest improvements over the last six weeks...Still, the new report adds to evidence that a recovery has started from the worst recession since the 1930s."

- Associated Press, 10/21/2009
