MOORE CALLS FOR FULLY PAID FOR TAX EXTENDERS BILL

(WASHINGTON, DC) – Congressman Dennis Moore (Third District – Kansas) issued the following statement today on tax extenders legislation:

“Most American families live within a budget, and they have an absolute right to expect their government to do the same. I applaud the steadfastness and the hard work of Majority Leader Hoyer and Chairman Rangel in supporting a tax extenders bill that fully complies with PAYGO. The Blue Dogs have and will continue to fight for fully paid for legislation, and I urge Senate Republicans to support this reasonable, balanced legislation that will extend critical energy, individual and business tax incentives without passing the tab to our children and grandchildren.”

The House is expected to consider a fully paid for tax extenders bill this week.
